The sulphuric acid test is not a satisfactory guide for estimating the rust-resisting power of a metal. It has a certain usefulness in investigative work, but is of little value as a practical test. 7. The ordinary black scale does not appear to be a retarder of atmospheric rust. Pitting causes deterioration in a year s time approximately three times as great as would rusting if distributed uniformly over the surface. 8. bile impurities in the metal undoubtedly have an influence on the rate of rusting, it is evident that, although some are detrimental, others may be beneficial. Little accurate information appears available on this matter. 9. Heterogeneity of structure of metal is generally supposed to be antagonistic to durability, but...
