

Calcium Regulating Hormones, Vitamin D Metabolites, and Cyclic AMP Assays and Their Clinical Application

Filesize: 5.92 MB

Reviews

Great eBook and beneficial one. It is packed with wisdom and knowledge You wont really feel monotony at at any time of your respective time (that's what catalogs are for relating to if you check with me).

(Maiya Kozey)

CALCIUM REGULATING HORMONES, VITAMIN D METABOLITES, AND CYCLIC AMP ASSAYS AND THEIR CLINICAL APPLICATION

Book Condition: New. Publisher/Verlag: Springer, Berlin | Calcium metabolism is regulated by three specific hormones: parathormone, calciferol metabolites, and calcitonin. Cyclic AMP also plays an important part in calcium regulation, and its concentration in urine can be taken as a measure of parathyroid function. Methods for quantitative measurement of, e.g. calcium-regulating hormones and vitamin D metabolites as well as of cAMP are absolutely necessary for safe differential diagnosis of diseases of the parathyroid like hypo- and hyperparathyroidism. In this monograph all presently available methods are summarized as to whether they can already be obtained as test kits or are still being tested. Radioimmunoassays for the various peptide fragments such as 53-84, 44-68, 28-48, and 1-34 are described, as are immunochemiluminescence methods and adenylate cyclase bioassays. The same is true for the vitamin D metabolites, where the various assays for calcidiol and calcitriol such as HPLC, protein-binding assay with second antibody separation, and double antibody RIA are described. Finally, determination of calcitonin and cAMP is discussed in detail. This is a practically and clinically oriented monograph for working in the fields of internal medicine, endocrinology, and laboratory medicine. | 1 Introduction.- 1.1 Clinical Application of Intact Parathyroid Hormone Determination.- 1.2 Clinical Use of Vitamin D Metabolite Assays (Calcidiol and Calcitriol).- 1.3 Diagnostic Value of the Peptides from the Calcitonin Gene.- 1.4 Immunoassay Vial for Improved Assay Performance.- 2 Parathyroid Hormone Assays and Clinical Application.- 2.1 Homologous Radioimmunoassay for Human Parathyroid Hormone (Residues 53 84) with Tyrosylated Peptide as Tracer.- 2.2 Sensitive Homologous Radioimmunoassay for Human Parathyroid Hormone (Residues 53 84) to Diagnose Hypoparathyroid Conditions: Guidelines for the Establishment of Highly Sensitive Assays.- 2.3 Rapid Homologous Radioimmunoassay for Human Parathyroid Hormone (Residues 53 84) as a Diagnostic Aid in Hypercalcemic Crisis.- 2.4 Homologous Radioimmunoassay for Human Parathyroid Hormone (Residues 44...
