

## Dyestuffs Volume 19

By National Aniline & Chemical

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 52 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1918 edition. Excerpt: . . . in the manufacture of dyestuffs in the last two or three years has developed the methods for the testing of the substances used in coloring the textiles. There are now many laboratories which are devoted to solving the problems of the dyer and checking up his work. The examination of the effects of this coloring matter upon the fabric is becoming more and more of an exact science. The fabrics are scrutinized under ultra-violet rays and under daylight lamps. Also, they are subjected to the microscope so that, if crystals of the chemicals are detected clinging to the threads, a fault in the dyeing process may be corrected. The colored fabrics are dipped in dilute acids or in alkali solutions so that their fastness may be determined. The strength of dyes is accurately measured in an apparatus known as a colorimeter, in which solutions...
