Dover Publications Inc., United States, 1974. Paperback. Book Condition: New. New edition. 232 x 154 mm. Language: English . Brand New Book. Excellent. Drawings of bone and muscle structure of the working of the joints and the interrelation of the various parts of the body are mainly concerned with movement of all sorts -- movements that are described in detail as well as illustrated. The bending, twisting, and turning, creasing and interlocking of the various parts of the body are represented in drawing as the wedging of masses in specific ways that are clearly defined by...
